

AUSTRALIAN E-RESEARCH INFRASTRUCTURE COUNCIL (AeRIC)

AeRIC MEETING – 31 AUGUST 2007

AGENDA ITEM 9: DEVELOPMENTS AT THE LEADING-EDGE OF e-RESEARCH

Purpose

To allow the Council to discuss developments that are likely to impact on e-Research in Australia in the future.

Issues

A key activity for NeAT will be the development of an architectural blue print of e-Research tools and services. This blue print will be one of the first tasks addressed by NeAT, which is expected to meet in mid- to late September.

In order to guide and inform NeAT, the views of AeRIC members are sought on what to blue print might address and include.

Action

That AeRIC consider what guidance it wishes to give NeAT on the development of an architectural blue print of e-Research tools and services in Australia.
